

DepthQ[®] 3D Video Kiosk

Until now, stereoscopic 3D projection was only possible in large rooms. The new rear-projected DepthQ[®] 3D Video Kiosk has changed all that, making high quality stereo 3D presentations possible in even the tightest 10'x10' booth. Our portable system uses passive linear polarization, and is versatile, self-contained, and easy to set up. It features a bright, high-contrast 40" screen, DLP[®] video display, a BOXX[®] computer, and DepthQ[®] 3D Media Server, all housed in an attractive display case with your choice of laminate.

Technical Description (Note - All Aspects of the DepthQ[®] 3D Kiosk are custom configurable)

DepthQ[®] Stereoscopic Media Server and Playback Computer

- 1 x Athlon 64 X2 4400+ with Hypertransport Bus
- 1 x 1GB DDR400 (2 512MB DIMMS)
- 1 x NVIDIA Quadro FX 1400 128MB DDR
- 1 x 120GB 7200 rpm SATA 8MB Cache Drive
- 2 x 250GB 7200rpm SATA 8MB Cache Drive
- 1 x 16x Dual Layer DVD-RW Writer with Nero Software
- 1 x Windows XP Professional Edition SP2
- 1 x Sound System with Stereo Speakers
- 1 x Black 104 Key Keyboard
- 1 x Logitech MX310 Corded Optical Mouse

Projection Equipment

- 2 x Projection Design evo2sx+ Video Projectors, 1400x1050, 2500 ANSI Lumens
- 2 x Bulb Replacement for evo2sx+

Projection Cabinet

- 1 x 3D Screen, Polarization Preserving Black Screen (Jenmar), Size: 40" Diagonal
- 1 x Portable Rear Projection Cabinet with Precision 3D Stacked Alignment Platform

Other Features

- Optional Record Capability for Realtime Stereo Input (e.g. from Intuitive's da Vinci[®] Surgical System)
- Optical Grade Rear Projection First Surface Mirror, 94% Reflective Glass
- Cabinet Panels Finished in Your Choice of Custom Laminate
- Projector Cradle Formed Of 11 Ga. Steel
- Black Anodized Aluminum Framing
- Levelers Standard

Includes ten pairs of black acrylic linearly polarized 3D glasses.

The DepthQ[®] 3D Kiosk is a product of **Lightspeed Design Group.**

Lightspeed Design has been a leader in stereo 3D for fifteen years, and is a trusted stereoscopic technology provider to the most discerning clientele, assisting in a wide range of disciplines - from pharmaceutical... to surgical systems... to 3D film production.

Clients include Pfizer, Johnson & Johnson, Stanford University, US Army, NASA, JPL, SimEx/Iwerks, DNA Productions, IMAX, and Disney Imagineering.
